

Charleston Sail and Power Squadron presents a youth outreach program for children aged 8 and older...

# Finding Your Way Afoot and Afloat

- \* Children will learn how a compass works and make one of their own. We'll cover basics of map orientation then go onto the trails of Sewee for hands-on practice taking bearings and following a simple course in the field. A stop at the pond will afford us the opportunity to see that not just hikers, but boaters too, can use these skills to find their way. Compasses will be provided.

**March 14, 2015  
10 A.M.**

**Sewee Visitor and Environmental Education Center  
5821 North Highway 17, Awendaw, SC**

**To register, email [lynes@tds.net](mailto:lynes@tds.net) or call 843-312-2876.  
Pre-registration is preferred. Event is free.**

Don't leave the center without visiting the exhibits and, of course,  
the viewing area for the endangered red wolf!
